

## OPTIM REVERSIBLE PLOUGHS

In order to meet our customers demands we have introduced in our range of machines the reversible ploughs OPTIM.

The coulters, vomers and skimmers are made of heat-treated alloy steel, giving extra strength to the product, which ultimately leads to lower maintenance costs and a longer period of return of investments.

### OPTIM 3

Tractor power [HP]	120
Working width [m]	0,9 - 1,5
Working depth [m]	0,35
Number of furrows	3
Dimensions [LxWxH] [m]	3,4 x 1,6 x 1,65
Weight [Kg]	950

### OPTIM 4

Tractor power [HP]	160
Working width [m]	1,2 - 2
Working depth [m]	0,35
Number of furrows	4
Dimensions [LxWxH] [m]	4,6 x 2,6 x 1,65
Weight [Kg]	1200

### OPTIM 5

Tractor power [HP]	190
Working width [m]	1,5 - 2,5
Working depth [m]	0,35
Number of furrows	5
Dimensions [LxWxH] [m]	5,5 x 2,6 x 1,65
Weight [Kg]	1435

### Other characteristics:

- Maintains a high quality soil structure and an efficient incorporation of crop residues.
- Features a shear bolt safety system that ensures the protection of furrow component in case of significant effort.
- Adjustable working depth between 0.2 and 0.35 m
- The attack angle can be adjusted, thus guaranteeing an optimal soil penetration
- Speed and ease in adjusting the working or transport position
- Hydraulic reversing mechanism
- For the plough with 4 furrows the working depth can be extended up to 2.5 m by attaching the fifth furrow.
- Extremely good maneuverability and reliability
